The Vice Chancellor of Adikavi Nannaya University Prof.Mokka Jagannadha Rao inaugurating the two day workshop as the chief guest emphasized the imperative need of imparting qualitative humanistic services with responsible empathy to the differentially able persons by the National / International service organizations, parents, government, caretakers, academicians and significant others . The coordination, cooperation and collaboration of all in addressing the physical ,psychosocial needs of these people is essential he elaborated stressing the positive /pragmatic interventions of all concerned. In depth decisive research by all concerned to tackle the needs of these persons is the responsibility of all concerned .

In his Key note address the Director of NIPMED , Dr Nichikita Rout underscored the need of cleanliness emulating the example of Florence Nightingale who initiated the need of Hand washing, devoted her life for the service of mankind . The convenor of the Webinar Dr .C.V.S .Mani Ramana ,Asst. Professor of Psychology –Adikavi Nannaya University explained various seminars , workshops and programmes undertaken in association with NIPMED and other NGOs . The Chairperson of two days webinar Sunkara Nagendra Kishore Spruha Psychology Alumni Association President , explained the modus operandi of F.G.D (Focused Group Discussion) to the caretakers n other participants . He mentored FGD , wherein the caretakers freely explained their problems (which were later clarified by the concerned Resource Persons) , one of the outcomes of this FGD is that Caretakers n Parents of differentially -abled were given priority for vaccination (as per the oral directions from the authorities concerned) Nagendra Kishore , underscored the need of Physical Activity also shown the video clippings of his experimental Study on the impact of playtherapy (Table Tennis with Vamsi highly talented Autism student) which received appreciation from all.
