

About the University

Adikavi Nannaya University (ANUR) was established by an act of the Andhra Pradesh Legislature (Act 28) in March 2006 at Rajamahendravaram, E.G. Dt. A.P. The motto of the University is Sarvatra Vidhyaya Vardhate Praja, highlights the role of universal education. Now ANUR is the Largest University in the State with 440 affiliated colleges. ANUR has been striving to make India a knowledge society/ economy. It offers students a remarkable range of academic courses that are paired with an extraordinary breath of extracurricular activities and opportunities for research, independent study and public service. It is striving to be an active contributor to the ever expanding field of knowledge under the able guidance and vision of the Vice-Chancellor.

Adikavi Nannaya University has a vision of achieving excellence in the near future and becoming forerunner of designing and initiating novel programmes that are relevant to the demands of Godavari Districts. PG courses offered by the University include English, Telugu, History, Political Science, Psychology, Social Work, Commerce, Economics, MBA, MHRM, Public Administration. Education offered B.Ed., M.Ed., M.P.Ed. And the Science stream offered PG courses which include Biochemistry, Biotechnology, Botany, Aquaculture, Zoology, Micro Biology, Physics, Applied Mathematics, Mathematics, Computer Science, Analytical Chemistry, Organic Chemistry, Polymer Science, Physical Chemistry, Geology, Applied Geology, and M.C.A., B.Tech., M.Tech.,

About the University College of Education

Visualizing the need for quality Teacher Education, the University College of Education was established in the year 2014. After formal approval of NCTE for the B. Ed., course a Board of Studies was constituted under the chairmanship of Dr.K.Subbaro, Principal, University College of Education, with senior Teachers and Professors of the region as its members. Adhering to the guidelines of NCTE and APSCE two years B.Ed. course with four Semesters was implemented from the Academic year-2015-16. At present 69 B.Ed, 7 M.Ed colleges are affiliated to ANUR. Under the able guidance of the present Vice-Chancellor Prof. Murru Mutyalu Naidu Garu ,M.P.Ed course was established in the academic year 2017-2018. In order to cater the needs of physical education. There are 11 B.P.Ed, 4 D.P.Ed colleges which are affiliated to ANUR. The principal, college of education discharges his duties as Dean Faculty of education, BOS in education and co-ordinator for sports board in addition to his regular duties.

About the Seminar

In this rapidly changing world it is difficult for us to overcome the learning difficulties and possible achievements. To overcome this gap concepts such as e-learning have become part of effective education. It increase the effectiveness of teaching and learning creates motivation makes the way for personality improves emotional balance and social skills. Indian education system faces quality and quantity challenges. This is only because of shortage of quality teachers, lack of proper environment and infrastructure. But these are not biggest hurdles to overcome. But the demand and urge for quality education enables to reach the dream of e-learning. The Government of India is a strong supporter of e-learning and the Department of Electronics and information Technology is actively developing tools and technologies for its promotion. The rapid growth of the internet connection in the last few years has become an important catalyst for the growth of e-learning in India. A reliable internet ecosystem with many local and global players will help online learning to move forward. Pre-recorded content, such as lectures, documentaries and other video materials, can be transferred to the farward and store models so that the material can be deliver. Again, digital delivery solves this problem in combination with electronic Readers and tablets.

E-learning provides great flexibility for both students and teachers. Students who missed classes could return to the course in the online platform similarly teachers could conduct a lecture to as many people as possible. More over e-learning will potentially create new jobs for many professionally with different options such as work at home etc and this can potentially radically change how our education system works because now there are no good teachers anywhere and when these systems make good teachers available almost every where the role of not very good teachers will be reduced to simple facilitators.

Theme: e-LEARNING LEADS ACADEMIC SUCCESS IN SECONDARY EDUCATION

Sub Themes:

1. Impact of e-learning in teaching learning process.
2. Impact of virtual classrooms in High school.
