INDUCTION PROGRAM FOR I BTECH STUDENTS

10-02-2022

As per the revised AICTE norms introduced from the academic year 2019-20 for B. Tech students, Induction Programme is introduced to acclimatize the students with environment and functioning of the University and its location.

Department of Science & Humanities of UCE is responsible for the curricular and co-curricular activities of I B.Tech. Mr. M. Bala Krishna, Course Coordinator, Dept. of S&H organized the programme as Convener under the guidance of Dr V Persis, Principal, UCE.

The Induction Programme was organized on 10-02-2022 which comprised of visits the aimed to familiarize the students with the host of facilities available in the University Campus and the location of the University. The students were informed of the infrastructure of the University as well as various co-curricular endeavours of the University.

The prime objective of the program is to ensure that students are made comfortable in the new premises, new city and are aware of the amenities in the campus as well as the city. A field trip as a part of the Induction Programme was organized as a part of Induction Programme in compliance with the rules of the organization is planned. The students were shown various significant places of Rajamahendravaram.

In this field visit, the students were informed the culture of the city of Rajahamendravaram. They visited important places of the city including: Sir Arthur Cotton Museum and Kadiyam Plant Nurseries. The students were then taken to the iconic Godavari Bridge and Pushkar Ghat of the city.

This activity helped the students to not only be informed of the city they will be educated in but also foster strong experience in the city and campus thereby enriching their learning experience.
