About Webinar

Life can be a beautiful journey, a crazy ride, and a big adventure. But it can also be a living nightmare, a constant struggle, and a hard teacher. It's all up to you.

The world is full of opportunities, but sometimes too much thinking can get in the way. Changing your life for the better is about picking a destination and taking one step at a time to get there. If you try to take shortcuts, you may actually end up making your journey longer and more arduous. Getting serious about making improvements is a great start, and taking action is the next important step.

The COVID-19 brought us to a standstill in our academic and professional activities. However the online tools or software available to us provide an opportunity to create a Platform in sharing our knowledge and transfer of information. The webinar is one such effort to interlink academia and personality development with the help of eminent speakers in these fields. It aims to inspire the students, youth and all the members of the community for better lifestyle and explore opportunities for nation building.
